

LAB #3

Class Id:19

Name: Sidrah Junaid

The project contains two pages Main and Map. On Main Page I used two button TAKE PHOTO for capturing the image and by clicking on SIGNUP it moves on to the Map activity and show the captured image as image marker on current location

The screenshot shows an Android application interface. At the top, the status bar displays 'Lycamobile' and the time '5:14'. Below the status bar, the app title 'MyApplication12' is visible. The main content area contains three text input fields labeled 'First Name', 'Last Name', and 'Address'. Below these fields are two buttons: 'SIGN UP' and 'TAKE PHOTO'. A red circular button with a white envelope icon is located in the bottom right corner. The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps buttons.
